**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I very much value our service with Sonic, as an ISP. They depend upon and use unbundled copper and inter-city fiber transport elements (UNEs) to compete in the residential marketplace. Their service is hands down superior to ATT or Comcast, price wise, value, and privacy.

Please do NOT change the key components of the 1996 Telecommunications Act that currently enables them to compete successfully in the residential market.

Already ATT and Comcast have too much governmental market place assistance in creating effective monopolies that shut out competitors. Please don't change the rules to eliminate one of their remaining competitors.

Thanks for considering this.
